

Louisville Lamp - Custom Lighting Assembler, Standard Products & Metal Fabrication

From prototype to production, Louisville Lamp has successfully served the POP/Display market for over 25 years with innovative and cost effective lighting solutions.

- LED / LCD Panels
- Puck & Track Lighting
- Integrated Custom Assemblies
- In-House Metal Fabrication
- Locations In United States, Taiwan & China
- Design / Development Assistance

AGS Technology - Unique Expertise in Certified, Reprocessed Injection Molded Material

AGS Technology produces high-performance custom injection molded products specializing in certified, reprocessed materials.

- Part Design to Production
- Plastic Regrind Feedstocks
- Certified Reprocessed Pellets End-Product
- IATF16949: 2016 Certified

General Plastics - State of the Art Thermoforming Partner

General Plastics provides innovative thermoforming solutions through their state-of-the-art facility. Materials range from commodity to engineering resins to specific plastic alloys.

- Sizes to 72" x 120" x 40" T
- CNC & Robotic Routing
- Dedicated Assembly Facility
- ISO9001:2015 & ISO14001:2015 Certified
- Processing Of Engineering & Commodity Grade Materials

Horizon Manufacturing Group, LLC - Rotomolding What Others Can't or Won't

Wisconsin-based rotational molder supplying a variety of markets. In-house tooling, design, fabrication & prototyping.

- Part Size Up To 120"
- In-House Tooling
- ISO9001:2015 Certified
- EPA Certified For Fuel Tanks

Thoroughbred Plastics - Quick Turn Tooling & Injection Molded Assemblies

An excellent choice for plastic manufacturing with in-house tool building, assembly/ fulfillment & a full range of injection molding services.

- Turnkey Solutions for Plastic Injection Molded Products
- In-House Mold Shop
- Fulfillment Packout & Palletization to Specification
- FDM Prototyping

Wisconsin Plastic Products - Complex, Precision Profile Extruder

Industry leading facility providing highly engineered profile extrusions. In-house engineering support & die building capabilities.

- Co & Tri-Extrusion Profiles
- Vacuum Calibration
- Sizes To 24" Wide
- Meta-Plastic Specialty Co-Extrusion That Bonds Plastics To Metal Substrates
- Certified ISO & UL Components Supplier

Midwest Prototyping - Innovative Cutting Edge 3D Printing Technologies

Leading on-demand digital manufacturer specializing in additive manufacturing allowing clients to streamline their design process, create an agile supply chain, and scale their business.

- SLA—Multiple Resins Available
- SLS Prototypes
- Cast Urethanes
- Fabrication & Machining
- 24 Hour / 7 day Per Week Production

Industrial Electronic Controls - Crafting Precision in Every Drive

Industrial Electronic Controls (IEC) is a electro-mechanical assembly manufacturing with attention to detail ensuring each assembly aligns with the stringent quality standards and specific needs of our clients.

- Custom Foot Pedal Assemblies
- Electronic Sensor Applications
- Mechanical Assembly
- Custom Electronic Displays
- Markets Include: Utility Vehicle, Carts, & Multi-Use Vehicles

Foster Electrical Assembly - Elevating Connections in Harnesses & Enclosure Assemblies

Custom solution manufacturer providing wire / cable harnesses and electrical enclosure assemblies. Partnering with our clients to offer end-to-end services while understanding the complexities involved in creating interconnect solutions.

- Custom Wire Harness And Enclosure Assembly
- Low Volume/Prototype Up To Large Volume
- 100% Electrical Testing
- Markets Include: Agricultural, Display, Construction, & Industrial Controls
- Semi-Automatic Wire Termination & Automatic Wire Processing

PROCESS DEVELOPMENT PARTNER IN THE MIDWEST

Design & Development

Our goal is to optimize design and product implementation so our client's projects are successful.

Engineering & Technical

Early design collaboration along with our knowledge and experience provides effective manufacturing solutions.

Production Launch & Rollout

Our experienced manufacturing lineup provides quality products through best manufacturing practices.
